### Conference Design and Purpose

The Florida Developmental Education Association conference is designed to enhance the professional capabilities of developmental educators in post-secondary institutions. Since 1977, FDEA has prepared educators to better serve Florida students through the theory, delivery, and practice of developmental education, and through the design of programs to prepare effective developmental curricula. We remain committed to our focus on professional development, advocacy and outreach. Additionally, this year we are particularly interested in sharing best practices in *K-12 partnerships, college readiness, math pathways, and advising/academic support*.
